"Making your occupation as comfortable as home"

COMPANY PROFILE

ACCREDITED WITH

GET TO KNOW US

Siyalungisa Occupational Hygiene Services (Pty) Ltd (hereafter Siyalungisa) is a 100% black youth female owned (Level 1 BBBEE) business founded in 2020. Our head offices are located within the highveld of the Nkangala district, Middelburg Mpumalanga.

Siyalungisa Occupational Hygiene Services was born from a vision to advance occupational hygiene and health through innovation, passion, and integrity. Our journey began with a simple but powerful belief: worker safety starts with humanity.

As a young and dynamic team led by dedicated professionals, we challenge outdated practices and push for change that respects workers and embraces evolving technology. Our SANAS 17020 accreditation as an Approved Inspection Authority marks a new chapter, allowing us to serve a wider range of industries beyond mining — always with the same commitment to quality and impact.

At Siyalungisa, we're not just inspectors; we're advocates for healthier, safer workplaces.

Mission

Siyalungisa Occupational Hygiene Services is dedicated to delivering scientifically rigorous, practical, and trustworthy occupational hygiene solutions. We empower organizations across mining and non-mining industries to protect their workforce's health by setting new standards, embracing evolving technologies, and championing a culture where worker safety and dignity come first.

Vision

To be a leading force in occupational hygiene across Africa and beyond—transforming workplace health and safety through innovation, integrity, and a relentless commitment to humanity.
